

Scrubmaster B25

Sustainability Data

Minuteman[®]
More Than Just Clean

It's Never Too Early for Sustainability!

That's why we incorporate our corporate responsibility into the development of all Minuteman units from large to small this includes the Scrubmaster B25 walk-behind scrubber drier with innovations setting standards in today's industry.

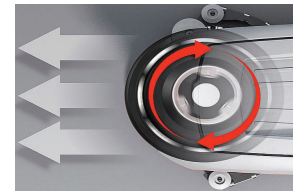

Optimal recycle-ability is achieved by using environmentally friendly, recyclable and durable materials. Taking responsibility for sustainability involves reducing waste, and to minimize environmental impact.

Eco mode allows operation using 30% less power. Operator and environmentally friendly.

Foldable handle for easy transport and storage.

The Scrubmaster B25 can be moved with little effort thanks to automatic propulsion by the rotation of the brush.

Convenient fresh water/solution fill opening.

- Compact Design
- Antibacterial Tank
- All Inclusive and Self-Contained
- Silent mode for noise-sensitive areas
- Extremely Maneuverable, Flexible and Agile
